Program FAQ

What are the setup fees?
Setup fees are waived for Gordon Food Service clients.

What is the agreement term and cost?
The term is 12 months, with the first 12 month of no hosting fees for On Premise Ordering, for unlimited orders. (savings of $1,188).

What type of online menu is included with this program?
Zuppler will create a visual branded menu for the restaurant, which includes images, and other features that will help guests order on premises in a contactless way from the restaurant.

Does this program include POS integration?
With this program, restaurants will receive order notifications via OrderZupp software (iOS and Android), email, or Zuppler website. POS integrations can be completed for an additional fee. Fees vary by POS provider.

Does Zuppler offer delivery?
Zuppler can integrate website and Google orders with our many delivery partners including Skipcart, DoorDash Drive, Habitat, and other national, regional, and local delivery companies. Costs vary by company and delivery distance, but rates tend to average between $8 and $10.

Where is this program available?
This program is available in the United States with some limitations to availability in Canada.

When will restaurants receive funds?
Restaurants will receive funds from Zuppler daily for online and on premise orders and monthly for Google orders.

Can the restaurant use their own credit card processor for On Premise orders?
The special rate (free) requires use of Worldpay credit card processing. Restaurants who wish to use their own processor may do so, but would pay the standard GFS rate of $99/mo for unlimited orders.

Does Zuppler offer customer service?
Yes, Zuppler provides 24/7 live customer service to all of our restaurants and their guests for no additional fee.
